

Is there any stock available?

Friday, 01 February 2008 15:51

If you are looking for stock the best option is to join the [Dream Mine Yahoo egroup](#) . There are over 7,000 stockholders and 1,200 have chosen to stay informed about the mine using this egroup. Once you join you can post a message asking if anyone has stock to sell.

You can also check the local online classifieds at www.ksl.com.
